VISITORS

# JUN 20

A black and white photograph of a large crowd of students sitting in bleachers. The students are looking in various directions, some towards the camera and others away. The bleachers are filled with people, creating a sense of a large gathering. In the background, a sign with the word "VISITORS" is visible. Overlaid on the image is the text "JUN 20" in large, white, outlined letters. The "J" and "U" are positioned in the upper left and center, while the "N" is to the right. The "20" is in the lower left and center, with the "2" being significantly larger than the "0".

A black and white photograph of a large crowd of students at a school event, possibly a sports game or assembly. The students are seated in bleachers, and many are looking towards the camera or the event. In the foreground, a student wearing a dark jersey with the number 32 is visible from the back. Another student in a white shirt and a patterned bandana is also in the foreground. The word "STUDENT" is overlaid in large, white, sans-serif capital letters across the center of the image. The background shows more students and the structure of the bleachers.

Wa-Hi  
VS.  
Chiawana

Friday, October 17, 2014 will be remembered by the chill in the air and the heat on the field. Wa-Hi put up a tough fight, unfortunately we were defeated by the Chiawana Riverhawks with a score of 19-28. At half time the Wa-Hi band performed followed by the annual crowning of the Homecoming King and Queen which was announced by a ceremonial balloon release, crowning King Juan Zamora and Queen Julia Jacobs. Saturday night's annual Homecoming dance was well attended by students with a theme of Starlight Paradise.

This year at Walla Walla High School, five exchange students had the privilege to become a part of the Blue Devil experience. # Much Ado About Nothing

Leonato's household welcomes Don Pedro and his successful companions home from war. Upon their arrival, young Claudio is quickly smitten with Hero, Beatrice and Benedick continue their war of wits from the past. Don Pedro wins Hero's hand for Claudio, but Leonato insists on waiting a week before they are married. To pass the time, Don Pedro decides to undergo "one of Hercules's labors" and make Beatrice and Benedick fall in love (they are perfect for each other.) He enlists the help of his companions and they are successful. However, Don John is plotting with his henchman to ruin everyone's happiness. On the eve of the wedding, he has his man Borachio make love to Margaret at Hero's window late one evening. Don John brings Claudio and Don Pedro to see the show. They believe Margaret is Hero; and therefore, Hero is unfaithful to Claudio. Enraged, Claudio shames Hero at the altar saying she is a "common sale."

As a Prince and his entourage leave the wedding, Hero faints. The family agrees to publish that has died from shock and grief and hide her away until the truth of her innocence can be proved. Benedick chooses now to confess his love to Beatrice. She requites his love, but demands he avenge her cousin. Meanwhile, the Prince's watch, led by Dogberry and Verges, has been attempting to keep peace in the streets and overhear Borachio telling Conrad of Don John's evil plan. They are brought to trial and Hero's innocence is revealed. As punishment for "killing" Hero, Claudio agrees to mourn her and marry Antonio's "daughter" who is said to much resemble Hero. As Claudio says his vows to the new bride, Hero reveals that she yet lives, is a maid, and will be Claudio's wife. Benedick asks for Beatrice's hand in marriage. The happy couples dance the night away.

## What did you like most about the play?

Joey Camacho

"I loved the setting and the people! I also liked making it look like in the kill-er performances."

Emily Coleman

"Hanging out with the cast and having Senter as the director was a great experience."

Katie Wenzel

"Learning the Shakespeare and making sense of the words was new and fun."

Emily Prull

"I thought the Wa-Hi drama put on a very well done rendition of *Much Ado About Nothing*. They did a great job making it funny and relatable."

## What do you do when you catch students sleeping in your class?

1»

"They don't. Because I'm so stinkin' entertaining and they should have to pay admission to get into my class!"

2»

"I ask them if they need to go to the nurse or ask if my class is just too exciting for them."

"I normally go up to them and say something that I think is funny, but they don't. What I really want to do is wallop them!"

— Lori Doherty

The timeless comedy, *Guys and Dolls* ran for 1,200 performances when it opened on Broadway in 1950, and is considered by many to be the perfect musical comedy. Set in the Manhattan of Damon Runyon's New York, it all begins with a bet, and from there we are off to the races! Gambler Nathan Detroit has a few options for the location of his big craps game but he needs \$1,000 to pay a garage owner to host the game. Nathan bets Sky Masterson that Sky can't get Sarah Brown out on a date. Sky manages to get the reluctant Sarah to agree in exchange for bringing people into her mission. Meanwhile, Nathan's longtime fiancée, Adelaide wants him to stop stalling and marry her.

# RETIRING STAFF

Congratulations to our four Retirees! You will be missed!

*Questions asked of each of our retirees:*

1. What subject have you taught?
2. What was your favorite part about teaching at Wa-Hi?
3. Who is your most inspirational faculty member and why?
4. What's the hardest part about teaching?
5. What do you plan on doing after you retire?

**Eva Hanson**

**15** Years at Wa-Hi

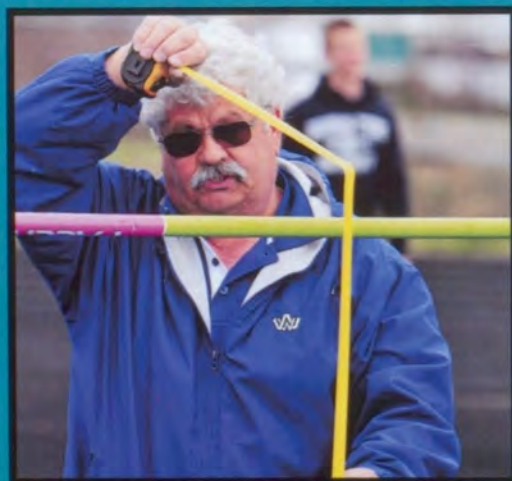

1. At the high school level I taught all of the Family Consumer Science semester classes including Human Growth & Development; Foods & Nutrition; Housing & Interior Design; Clothing & Textiles; Personal & Family Relationships as well as courses in Health, Personal Finance/Consumer Affairs and Career Exploration/Career Development. After these very wonderful professional experiences, I worked as a High School Counselor.
2. I loved joining the Wa-Hi staff and getting to know students, parents, staff and community in a part of the country that others only read about in history books! I invested in getting to know each of the students in my counseling range and so very much wanted to work with each to support them academically and personally. My students mean a lot to me!
3. Following a tragic accident and making some geographical moves, I was drawn to Walla Walla by an outstanding administrative team that embraced qualities of those that I had formerly associated with and learned so much from. That team, headed by Abe Roberts, including Len T.; Mary Lynne S.; Al S. and Lynn K. were a breath of fresh air; I was especially happy to get to work with them, their staff and others that followed.
4. By far, the most difficult part of teaching is balancing, finding time to keep up with all the mandates and yet be very present and on top of it for each and every student as well as to assist staff members and parents.
5. I plan to enjoy days without alarm clocks and bells. With my family, I plan to spend more time in the mountains especially, more time at our mountain ranch. There, I will breath in the fresh, crisp air; I will wear more flannel shirts, read more books and enjoy more campfires! Carl and I plan to so some traveling and we will definitely spend more time with our children and grandchildren.

**Robert Maib**

**28** Years at Wa-Hi

1. Woods, General and Advanced Construction. All phases of building a home: Applied Math, General Math, Health, Physical Education.
2. Working with young adults and students that appreciate you and know that you appreciate them. Students that either ask for help or when you help them they show pride in what they have done. Being part of their lives, helping them get through easy times and hard times. Being someone that the students could trust.
3. Having to work with administration that do not have the same drive for connecting with kids as do other staff.
4. There are so many that have made a difference in education, in how we teach it and in how we help those that are around the students. I have had the pleasure of working with some great administrators earlier in my career. My family and past coaches made going into education a simple choice as it kept me involved with young students and gave me the opportunity to work with athletics.
5. I plan to work at either the same profession or another type of job, but I will have to work so I do not get thrown out of the house because of remodeling too much.

# Terry Willcuts

24 Years at  
Wa-Hi

1. I have taught Basic Reading, Freshman English, Pre AP Sophomore English, Junior English, Grammar and Composition, College Prep World Literature, AP Language and Composition, Mythology, Introduction to debate, Journalism, and I advertised the Wa-Hi Journal.
2. The best part of teaching consist of the terrifically dedicated staff I have had the privilege to work with and the myriad students I have befriended over the years. Having students succeed here and beyond high school is very satisfying and worth the effort
3. As a graduate of Wa-Hi class of 1971 I have known some amazing teachers. Two who inspired me to teach were Richard Poole and Charles Patterson of the English Department. Those two made the study of literature interesting and fun.
4. The hardest parts of teaching are not being able to reach certain students who have potential who choose to not make the best of their time here. The ever changing state and national requirements and demands on teachers can be quite frustrating
5. In a previous life I was an artist blacksmith and still dabble in that as a hobby. The demands of teaching have kept me from doing that, plus I have an old century home that has kept me busy that past 34 years trying to keep it healthy. I plan to refire my forge and pursue the artistic side of me a bit more. I like gardening fishing, Bicycling, hiking and camping, and as part of my bucket list I want to visit all of our nation's national parks.

# Gretchen Baker

1. I have taught Vocational Classes to special needs students. Vocational Employability Skills and Career Choices.
2. The students are everything to me. I loved helping them learn and then seeing them in the community working as productive citizens. I also enjoyed working with all of our business sponsors over the years. The program would not have been a success without them and their support. We had a great partnership as well as mutual goals for students to help them be successful.
3. Jeanne (Lothspeich) Schmidt. She demonstrated kindness and compassion to everyone...students, staff and parents.
4. Nothing. I loved my job.
5. Visit my daughter in California, stay at my cabin longer than just a weekend and I also enjoy sewing and painting.
